Prof. Harvey Lui
 President
 International League of Dermatological Societies
 London, United Kingdom

Dear Prof Harvey Lui

LETTER OF SUPPORT TO HOST 25TH WORD CONGRESS OF DERMATOLOGY (WCD) 2023 UNDER DERMATOLOGICAL SOCIETY OF SINGAPORE

The College of Physicians Singapore, Singapore (CPS) and the Chapter of Dermatologists would like to affirm our full and unequivocal support for the Dermatological Society of Singapore (DSS) in their bid to host the 25th World Congress of Dermatology 2023 in Singapore.

Of particular note is that WCD has never been held in South or South-East Asia. Hosting the conference here will raise the standard and profile of dermatology in Singapore and in the region.

As the gateway to Asia, Singapore is a cosmopolitan metropolis and an innovation hub. Equipped with a world-class infrastructure, including the award winning Changi International Airport and first rate MICE facilities, capably supported by a dynamic business ecosystem and a regional medical hub to enable the exchange of ideas, networking and collaborations, Singapore is well positioned to host WDC 2023.

Having WCD 2023 in Singapore, would definitely be timely and notable to the global dermatology community as it will take place soon after the expected completion of the new National Skin Centre in 2022, a renowned international centre of excellence in dermatology. It will also coincide with the 10th anniversary of the setting up of the Skin Research Institute of Singapore.

With the dedication and commitment of DSS and supported by CPS and Chapter of Dermatologists, the Singapore dermatology community, and relevant government agencies, we are very confident that WDC 2023 Singapore will be a great success.

Yours Sincerely

Chan Choong Meng
 President
 College of Physicians, Singapore

Chio Tze-Wei Martin
 Chairman
 Chapter of Dermatologists
